

**LA JOLLA VILLAGE**  
Endodontics

Jeffrey M. Javelet, DDS  
Kevin B. Stewart, DMD

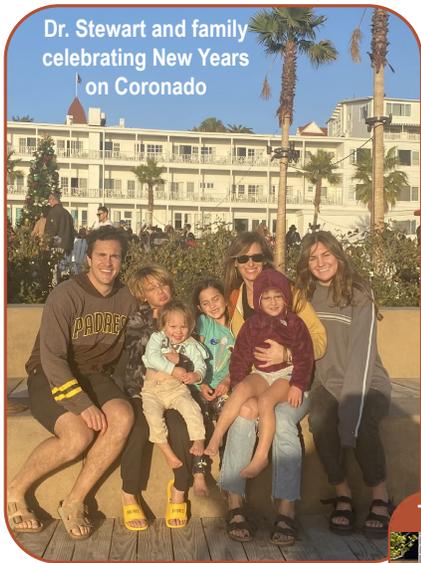

# Spring Newsletter 2022

Spring has sprung! With things kicking into bloom, we want to update you on all the good things happening here at La Jolla Village Endodontics.

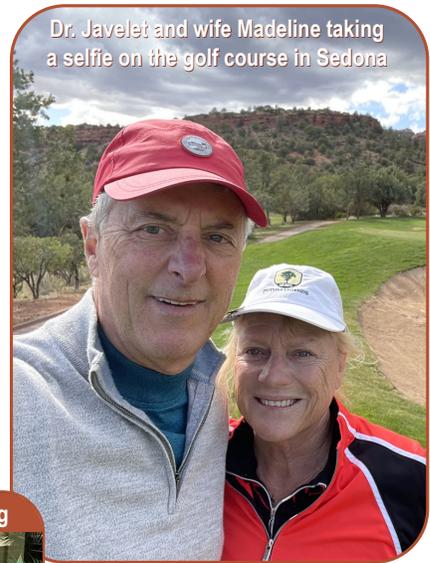

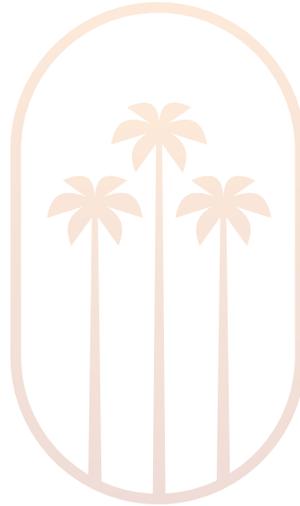

March 12th marked the one-year anniversary of Dr. Stewart teaming up with Dr. Javelet and becoming the owner of LJVE. The first year was a success and we are grateful for all the support our office received from the surrounding community. La Jolla Village Endodontics has been able to accommodate patients every day of the week, while providing top level care. Entrusting the team at LJVE with your referrals motivates us to provide the best patient experience possible. With this in mind, we continue to make investments in our practice to help maintain the highest level of clinical excellence for our patients and to serve you, our incredibly talented referral base!

To better serve our patients, we've transitioned to paperless record keeping and upgraded with: new microscopes, a new full view CBCT scanner, new x-ray sensors, and new rotary units as well as adding additional cameras. We have also built out a third treatment operatory to improve workflow in accommodating urgent endodontic needs. These changes have improved our clinical and administrative efficacy, and we've already received great feedback on the enhanced visuals included in reports.

We continue to work with local architect Alicia Calhoun in a phased remodel of our physical space to give a positive esthetic appearance for our patients. Last fall we updated the ceilings, lighting, and windows. This spring and summer we are reworking the floors, cabinetry, paint, and freeing up additional space for consultation and administrative tasks.

Dr. Stewart and Dr. Javelet are really excited about all the wonderful improvements happening here at the office enabling us to continue offering top level care to the patients and referral base we work with. Thank you again for all your support and trust you give us. Rest assured that we will work tirelessly to keep earning that trust each day. Have a great spring and we will see you soon!
